Contents

Gerald Scott—An Appreciation v

Preface ix

List of Contributors xv

Mechanisms of Antioxidant Action and Stabilisation Technology—The Aston Experience 1
SAHAR AL-MALAIKA

The Effect of Stabilisers on Integrated Chemiluminescence in the Early Stages of Polypropylene Photo-oxidation 37
GRAEME A. GEORGE & MOUSA GHAEMY

Thermal Degradation and Fire Retardancy of Antimony and Bismuth Trihalides–Melamine Complexes 55
L. COSTA; G. CAMINO, G. BERTELLI, R. LOCATELLI & M. P. LUDA

Wavelength Effect on the Photo-degradation of Polycarbonate and Poly(methyl methacrylate)—Confirmation of the Photo-degradation Mechanism of PC/PMMA Blends 75
YASUSHI FUKUDA & ZENJIRO OSAWA

The Key Role of Antioxidant Transformation Products in the Stabilization Mechanisms—A Critical Analysis 85
JAN POSPÍŠIL

Studies on the Thermooxidation of Ethers and Polyethers: Part I—The Uninhibited Thermoooxidation of a Polyether . . . 111
U. Hähner, W. D. Habicher & K. Schwetlick

Studies on the Thermooxidation of Ethers and Polyethers: Part II—Inhibition of the Thermooxidation of a Polyether by Phenolic Antioxidants 119
U. Hähner, W. D. Habicher & K. Schwetlick

Photodegradation of Blends of Poly(vinyl chloride) with Styrene–Acrylonitrile and α-Methylstyrene–Acrylonitrile Copolymers . 125
David J. T. Hill, Francine A. Kroesen, James H. O'Donnell & Peter J. Pomery

Photothermal and Thermal Oxidations of Rigid, Plasticized and Pigmented Poly(vinyl chloride) 135
Jean-Luc Gardette & Jacques Lemaire

An ESR and ENDOR Study of Electron Transfer to Oxygen in Enzymatic and Random Radical Reactions 169
A. Tkáč & R. F. Bilton

Thermal Degradation Studies of Terephthalate Polyesters: 1. Poly(alkylene terephthalates) 187
I. C. McNeill & M. Bounekhel

Mechanisms and Kinetics of Photostabilization of Polyolefins with *N*-Methylated HALS 205
François Gugumus

Electrophotographic and Microwave Photodielectric Studies on Titanium Dioxide Pigments in the Solid State: Relationship with Durability 243
Y. S. Chow, N. S. Allen, F. Thompson, T. S. Jewitt & M. R. Hornby

Chemiluminescence from Peroxides in Polypropylene. Part I: Relation of Luminescence to Peroxide Content 263
N. C. Billingham, E. T. H. Then & P. J. Gijsman

Degradation of Polyolefins during Melt Processing 279
The Late Hans Hinsken, Serge Moss, Jean-Roch Pauquet & Hans Zweifel

Polyethylene-Bound Antioxidants 295
D. MUNTEANU & C. CSUNDERLIK

Polyethylene Hydroperoxide Decomposition Products . . . 309
J. LACOSTE, D. J. CARLSSON, S. FALICKI & D. M. WILES

The Role and Reactions of Nitroxyl Radicals in Hindered Piperidine Light Stabilisation 325
E. T. DENISOV

Transformation Products of Hindered Phenolic Antioxidants and Colour Development in Polyolefins 333
PETER P. KLEMCHUK & PAUL-LI HORNG

Index 347
